TRIMACO
# **SPEEDYROOM**™

TEMPORARY WALL SYSTEM

Trimaco's SpeedyRoom™ is a convenient temporary wall system at an economical price. 2X thicker and 3-4 times denser than traditional corrugated plastic make this a heavy duty and reliable zoning solution. Can be used to create rooms, hallways, partitioned areas and more. Simply break sheets apart, connect pieces, and get to work – no tools needed. The SpeedyRoom is the fast way to set up a temporary room or social distancing area and is easy to clean and reusable.

4 ROOMS CAN BE MADE WITH STARTER KIT AND CONNECTORS
EASY AND FAST - NO TOOLS NEEDED
MADE FROM HEAVY DUTY (BUT LIGHTWEIGHT) POLYPROPYLENE
REUSABLE, EASY TO CLEAN AND 8MM THICK
SOCIAL DISTANCING SCREENS

WALL PANEL

DOOR SUPPORT
Create a doorway between two panels using 2 Straight Connectors

WALL SUPPORT
Use with 3 Tee or Cross Connectors to give a straight wall extra support

CONNECTOR LOCATORS/SLOTS
Pre-cut holes with locking mechanism to join one panel to another

SERVICE HOLES
Allow passage of critical cables

WALL PANEL BASE
One piece clip on base for stability

CONNECTORS
Use the 4 types of Connectors to build many configurations

Straight *For running straight walls or for joining door supports*

Cross *Use 3 when you need to connect 4 panels together*

Corner *Use 3 to create right angled corner*

Tee *Use 3 when you need to join a panel to a straight wall or add in a wall support for stability*
